DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 03, 2006 has been entered.

Claim Objections

2. Claims 1-17 and 20-28 are objected to because of the following informalities:

In claim 1, lines 16-17, "the second device" should be "the second communication device".

In claim 3, line 3, one of the second signals should be deleted.

In claim 12, the identifier "(Original)" should be "(Currently Amended))" since claim 12 has been amended.

In claim 20, lines 7 and 9, "guard band being" and "the second device" should be "the guard band being" and "the second communication device", respectively.

In claim 25, line 11, "the first device and the second device" should be "the first communication device and the second communication device".

In claim 27, lines 2-3, "the first device and transmitting a second signal from the second device to the first device" should be "the first communication device and transmitting a second signal from the second communication device to the first communication device".

Wherein the dependent claims 2, 4-11, 13-17, 21-24, 26 and 28 are objected to because they are depended upon independent claims 1, 20 and 25.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 2-6, 8-9, 13-17, 20-21, 24 and 27-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2 (line 3), claim 3 (line 2), claim 4 (lines 2 and 3-4), claim 14 (line 5), claim 20 (line 3), claim 21 (line 3) and claim 27 (line 2), the phrases "a second signal", "a second band-edge channel", "a second predefined maximum system transmission power level", and "a second communication device" are vague and indefinite because none of the precedent claims recites "a first signal", "a first band-edge channel", "a first predefined maximum system transmission power level", and "a first communication device".

In claim 6 (line 5), claim 8 (line 5), claim 14 (line 2), claims 16-17 (lines 1-2), claim 21 (line 4) and claim 27 (line 3), the phrases “the reduced power level”, “the predefined maximum system transmission power level”, “the first and second predefined maximum system transmission power levels”, and “the assigned power” all lack antecedent basis.

In claims 6 and 8, clarify the difference between “power control mechanism” and “a power control mechanism”?

The dependent claims 5, 9, 13, 24 and 28 are rejected to because they are depended upon independent claims 1, 20 and 25.

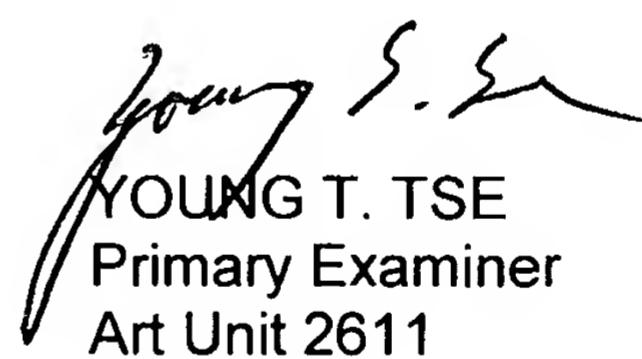

Allowable Subject Matter

5. Claims 1-17 and 20-28 would be allowable if rewritten or amended to overcome the objection(s) set forth in this Office action.
6. Claims 2-6, 8-9, 13-17, 20-21, 24 and 27-28 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
